Thank you for your dedication!!

The shop has a solid fresh start... just in time for Spring.

Why is the letter 'A' like a flower? Because a bee comes after it.

Where can you always find gold on St. Patrick's Day? In the dictionary.

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
Box Trailers The new 18-circuit box trailers (BXTR) should start rolling out next week through the rest of the month. There will be a total of 4 in the first batch. Keep an eye out!		1 	2 	3 oitsal Friday 	4 	5
6 If you haven't already, log into Fleetio: Tasha sent invites to join, but let us know if you can't log in.	7 We're requesting that you report meter hours to your generators in the field on Fleetio every Monday.	8 If you have an issue with your equip. in the field, document it on Fleetio. If it is major, let us know directly also.	9 Friday is a good day to catch up on the week for any issues you may have had & not recorded in Fleetio ----->	10 oitsal Friday 	11 Don't forget the clock moves ahead one hour on Sunday night. ----->	12 Spring Forward
13 The shop is now fully staffed. We believe we have a good crew, & along with Spring, you should see new growth.	14 One of the new guys, Nathan, is @ San Jac to learn radiography. Working here ought to give him a leg up working around HT.	15 The next new guy is Kenneth. He comes with an automotive background & will help us bring more repairs in-house.	16 We're modifying our inspection, repair, and loadout processes to help improve accuracy & efficiency.	17 Fleetio Friday 	18 A critical piece to our improvement is your involvement. Inspect, report & make repairs in the field on down time.	19 A help would also be to clean the equip. out before or on return. Trash is trash and belongs in a trash can.
20 Another critical part is getting the loadout correct. Check your loadout before you take it out. Also ensure it's secure.	21 The new loadout form will have a place for the tech's signature who takes it out. Check before you sign.	22 K-Plug issue: please do not cut & chunk the k-plugs. They're relatively expensive & we're losing faster than we can replace.	23 The heat is on its way. Just as you need to remain hydrated, so do the TMG's. Check the coolant daily.	24 oitsal Fleetio 	25 Speaking of the heat, if you take cases of water out to the site, remember to log the cases you take on the clipboard.	26 Also, on your TMG inspections, check the radiator for debris. The heat will bring the strain on a clogged radiator.
27 A jumper cable walks into a bar and the bartender says, "I'll serve you, but you better not start anything."	28 I hired a handyman to do some odd jobs. He did every other thing on the list.	29 I asked a mechanic for a book on how to fix automatic gearboxes, but he only has manuals.	30 I asked a mechanic why my car engine was humming and he said it was because it probably didn't know the words.	31 Fleetio ysbir 	"Me letting my co-workers know our shift is almost over"	

If you have any ideas for the newsletter or improvements to the shop/vehicles/equipment/processes, let us know:
 Michael Aune: maune@htsameritek.com (832) 54507617
 Johnathan Ury: jury@htsameritek.com (832) 274-2693

Welcome Aboard!
 We've added two new deck hands:

Nathan Guillen & Kenneth Broussard

REMINDERS

FLEETIO is now in use.

If you haven't already, Download Today!!

Use
FLEETIO to
Report issues
& inspections.
